

Hanging scale Z

ZW 5.0

Product information

Description

This fully electronic scale is suitable for measuring tensile and compression loads. It is available for various load ranges between 50 kg and 500 kg. On request, this scale can be supplied for use as a force gauge; the load ranges are then between 500 N and 5000 N. The hanging scale consists of a miniature sensor and a hand-held terminal which are connected by a spiral cable. The display of the hand-held terminal can show the current measured values as well as the peak values of both load directions.

The sensor, a shear-force load cell, is insensitive to transverse forces. This ensures that the scale provides very accurate measurements. In many applications where space is limited, the miniature version of the shear-force load cell is extremely useful. The two mounting threads on the sensor offer numerous installation possibilities; we offer spherical rod ends and eyebolts as accessories to aid installation.

You can request the firmware version, the date of the last calibration and the serial number of your device via an easy-to-use menu. In this menu, you can also set the auto-off time for saving the batteries, the desired measuring rate and the display contrast.

Four batteries of type AA which can be easily replaced by the user supply the scales with power.

Features

- I Low self-weight
- I Nominal loads of 50 kg to 500 kg,
- or of 500 N to 5000 kN
- I Zero positioning and taring
- I Measure the top load in positive and
- negative direction of force
- I 4 x batteries type AA
- I Requests/settings via one menu
- I Optional with spherical rod ends or eyebolts

Applications

- I Dynamometer
- I Force gauge
- I Tensile and compression applications
- I Weighing operations or force measurement in many different fields

Selection table

| Туре | Nominal load | Sensitivity / display increments | Mounting threads | Self-weight (without mountings) | Material of sensor |
|--------------|-----------------|-------------------------------------|---------------------|------------------------------------|--------------------|
| ZW 5.0 / 50 | 50 kg / 500 N | 0.01 kg / 0.1 N | 2 x M8 | 0.5 kg | AI. |
| ZW 5.0 / 100 | 100 kg / 1000 N | 0.1 kg / 1 N | 2 x M8 | 0.5 kg | AI. |
| ZW 5.0 / 200 | 200 kg / 2000 N | 0.1 kg / 1 N | 2 x M10 | 0.5 kg | AI. |
| ZW 5.0 / 300 | 300 kg / 3000 N | 0.1 kg / 1 N | 2 x M10 | 0.6 kg | Steel |
| ZW 5.0 / 500 | 500 kg / 5000 N | 0.1 kg / 1 N | 2 x M10 | 0.6 kg | Steel |

Technical data

| | Overload | 1.2x nominal load | | | | |
|----------------------|--|---|---|--|--|--|
| | Display | 12digits, 2 lines | ι | | | |
| | Accuracy | ±0.25% f.s. (under tension <i>or</i> compression) | | | | |
| | (under tension and compression available on request) | | | | | |
| | Measuring rate | configurable: 10, 20 or 100 Hz | l | | | |
| | Power supply | 4 x battery type AA | | | | |
| | Operating time | >8h continuous operation | | | | |
| | Auto-off time | configurable: 8, 30, 60 min / off | | | | |
| | Operating temperature | 0°C to +50°C | (| | | |
| | Storage temperature | -20 °C to +70 °C | | | | |
| | Protection class | | I | | | |
| | of the hand terminal | IP 40 | | | | |
| | of the sensor | IP 67 | | | | |
| | Housing of the hand terminal | ABS | | | | |
| | Hand terminal's dimensions | 78 mm x 145 mm x 44 mm (w x l x h) | | | | |
| Dimensions of sensor | | 20 mm x 40 mm x 40 mm (w x l x h) | | | | |
| Spiral cable | | Length 0.5 m / extended length 4 m | | | | |
| | | - | | | | |

Calibration

| As scale | | | |
|--------------------------------------|---------------|--|--|
| Under tension <i>or</i> compression: | display in kg | | |
| As force gauge | | | |
| Under tension or compression: | display in N | | |
| Under tension and compression: | display in N | | |
| Accuracy on request | | | |
| | | | |
